7series

Available Models

7 Series 4

6' Tall
4 Lamps
No Doors

The most basic model 7 Series, our economical 4 lamp unit without doors saves on space and can even hang on a wall.

7 Series 4D

6' Tall
4 Lamps
Doors

Adding reflective doors to the 7 Series allows you to protect the lamps when not in use.

7 Series 6

6' tall
6 Lamps
No Doors

Increase your output in the same amount of space by increasing the number of lamps.

7 Series 6D

6' Tall
6 Lamps
Doors

Reflective doors not only protect the lamps but aid in directing light during treatment.

7 Series 8

6' tall
8 Lamps
Doors with Lamps

By adding lamps to the doors, patients can achieve a "wrap-around" effect.

7 Series 10

6' tall
10 Lamps
Doors with Lamps

This "wrap-around" effect allows patients to treat their entire body with just two exposures.

7 Series 12

6' tall
2 Lamps
Doors with Lamps

The more lamps that are used, the higher the UV output of the device will be, resulting in faster treatment times.

Specifications:
