

# HOME SOLUTIONS

From spot treatment to full-body, Daavlin's wide assortment of home phototherapy options means we have a solution for every individual need. Outlined below are our most popular home units.

## DermaPal

Lightweight and portable, the DermaPal wand is an excellent choice for scalp, spot, and hard to reach treatment areas. The high output lamp reduces treatment times, while the onboard timer ensures your treatments are safe and accurate.

## 1 series

This small panel unit is ideal for treatments of the face, hands, feet, and more. The on-board controller and high-output lamps ensure accuracy and efficiency when treating, while the slim and lightweight design of the unit makes traveling and storage incredibly convenient.

(Optional swivel stand and accessories available)

## 7 series

At 6 feet tall, the 7 Series is the preferred choice for patients who want to treat their full-body psoriasis, vitiligo, or eczema in the convenience of their home. The 7 Series offers advanced technology via the ClearLink Controller, ensuring safe and accurate treatments every time, while the space saving design allows for convenient storage options when not in use.

(Available in a variety of lamp and door configurations. Accessories include rolling castors and wall-mount kit)

# HOME PHOTOTHERAPY

A safe, effective, and affordable treatment option for patients living with psoriasis, vitiligo, or eczema.

Daavlin

Take Control with Daavlin Phototherapy

# What Is Phototherapy?

Often a first line treatment option, phototherapy has been helping patients live clear for decades.

Phototherapy is a treatment dermatologists have successfully been using for decades to treat various skin conditions such as psoriasis, vitiligo, eczema, and many others. It involves exposing the skin to prescribed doses of ultraviolet light that are tailored to specific wavelengths to suppress inflammatory reactions in the skin. Phototherapy is often considered a first-line treatment option for many skin conditions due to its high rate of success and safety profile.

# Why Choose Phototherapy?

When comparing treatment methodologies, it's clear why phototherapy is the preferred choice.

- **It's Safer**<sup>1</sup>

Narrow Band UVB is considered a first-line treatment, is safe enough for pregnant women and children to use, and has none of the side effects associated with competing therapies.

- **It's More Affordable**<sup>4</sup>

The average one-time cost of a six foot tall panel unit is drastically cheaper than other treatment therapies.

- **It's Faster**<sup>3</sup>

For psoriasis, both Narrow Band Phototherapy and PUVA have median clearance times of only 4-5 weeks; twice as fast as the prescribed biologics.

- **It's More Effective**<sup>2</sup>

For decades, statistics have shown consistently high rates of psoriasis clearance for both PUVA and Narrow Band UVB. In addition, patients who stop using phototherapy seldom suffer from the flares or rebounds that are common with other treatments.

# Why Choose Daavlin?

Daavlin is the global leader in phototherapy equipment and knowledge. Here's why.

- **Proven Results**

For more than four decades, Daavlin phototherapy has been a trusted resource by physicians worldwide due to our device efficacy and overall patient satisfaction.

- **Technology**

At Daavlin, we are a step-ahead of the rest. Our ClearLink Controller, a proprietary touch-screen control option, changed the phototherapy landscape by offering a variety of different treatment options best suited to the patients needs, and thus, allowing more patients to treat on their terms. Additionally, Daavlin offers online support, mobile apps, and an extensive library filled with training and support videos.

- **Selection**

Our collection of home devices are available in different sizes and are configurable to your needs - learn more about Daavlin's complete lineup by visiting our website

- **Safety**

At Daavlin, your safety is our top priority. That is why all of our devices are built with integrated safety protocols aimed at preventing patient error which could result in accidental over exposure.

- **Service & Support**

Daavlin's service is unparalleled in the industry and our knowledgeable staff are here to help you on your path to clearer skin. With Daavlin, you have support every step of the way.
